BUILDING PERMIT APPLICATION INFORMATION

- ☒ Fences and other miscellaneous projects only require the completion of the building permit application and a minimal review.
- ☒ Additional permits are required for any electrical, plumbing and mechanical installations.
- ☒ Permit applications are reviewed in the order in which they are received, so in order to avoid any delays make sure that all of the required information is provided.

RESIDENTIAL – Two sets of plans and specifications need to be provided with the following information:

- ☒ **New Single Family Dwellings/Duplexes and Townhouses/Manufactured Homes – Two full sets of plans**
 - Site Plan - All site plans must be to not less than 1/20 scale and include lot lines, easements, drainage, north arrow, lot corner and foundation elevations.
 - Foundation Plan - Reinforcement (required only for foundations exceeding 2 feet in height), ventilation, frost wall for stoops of other appendages.
 - Floor Plan - Building dimensions, window and door sizes, smoke detectors.
 - Wall Section - Foundation, structural framing members, wall composition (including wall insulation & insulated sheathing) insulation baffles, roof framing, roof sheathing, roof covering, roof pitch.
 - Elevations - Front, back and both sides.
 - Energy Form - Prescriptive report or RESCHECK energy compliance form (ResCheck software is available at no Charge at [www. Energy. codes. Gov](http://www.Energy.codes.Gov))
 - Flood Plain - Flood plain certificate for all project built within Caldwell designated flood plain.
- ☒ **Residential Additions/Accessory Buildings/Manufactured Homes**
 - Site Plan - All site plans must be to not less than 1/20 scale and include lot lines, easements, Drainage, north arrow, lot corner and foundation elevations.
 - Floor Plan - Building dimensions, window and door sizes, smoke detectors.
 - Wall Section - Foundation, structural framing members, wall composition (including wall insulation & insulated sheathing) insulated baffles, roof framing, roof sheathing, roof covering, roof pitch.

PLAN REVIEW TURN AROUND TIMES

- ☒ The estimated time for a residential plan review is set at not more than 5 to 7 working days. This is contingent upon the submittal of a complete set of plans and specification along with all of the required supporting documents. Exception – Projects proposed on parcels of land that are not part of a platted subdivision will take longer.

MANUFACTURED HOMES INSPECTION POLICY

- ◆ Manufactured homes require five typical inspections; a Setback/Block & Tie, Electrical, Plumbing, and a Final. Additional items such as porches, decks, carports and garages require separate permits, which require their own inspections. Any newly installed, or replaced mechanical equipment shall require a mechanical permit and inspections.

Note: Section 110.1 of the IBC requires work to remain exposed for inspection. Skirting shall not be installed until the Block & Tie, Electrical and Plumbing has been approved and job card signed.
