We've expanded plastics recycling in Idaho to include PET #1, HDPE #2 and PP #5. Residents can now recycle lightweight water and soda bottles, milk and detergent jugs, and yogurt and butter tubs in curbside recycling carts. Plastics marked with #3, #4, #6 or #7 are NOT accepted for recycling.

Acceptable Plastic Items

Plastic bottles marked #1 and #2, such as milk jugs, detergent jugs, lightweight water bottles and soda bottles. Plastic food tubs marked #5 (new!), such as yogurt and butter tubs. Containers must be empty and clean. Leave lids on containers.

Unacceptable Plastic Items (all other plastics)

All clamshell containers, plastic bags, Styrofoam™, flower pots, berry boxes, beverage cups (plastic or compostable), loose lids, meat trays, motor oil bottles and containers more than 2.5 gallons.

Important Plastic Recycling Updates
