City of Caldwell re-opens Middleton Road with new lanes and roundabout

CALDWELL – The City of Caldwell re-opened a newly constructed section of Middleton Road between US-20/26 and Linden Road on Friday, November 8. The city widened Middleton Road to five lanes and built a roundabout at the intersection of Middleton Road and Skyway Street.

“We would like to thank everyone for their patience as we widened this important corridor for our community,” said TJ Frans, Project Manager. “The community’s support and cooperation were a big reason why we were able to complete the project on time.”

[Click here](#) to watch a before-and-after of the project from March 2024 to October 2024.

Improvements included:

- Widening Middleton Road to five lanes from the Noble Drain to Shadow Glen Drive.
- Adding a roundabout at the intersection of Middleton Road and Skyway Street.
- Building a raised median and U-turn opportunity between Linden Road and Skyway Street.
- Adding sidewalks, bike lanes, signalized pedestrian crossing, street lighting and landscaping.

Construction began in summer 2024. Crews expect to finish final activities by the end of the year.
