

- NOTE:**
1. Any porch or carport shall not be attached to any manufactured home without a design from a licensed design professional.
 2. This handout is a guide to an approved alternate method of construction.
 3. The only attachment approved to a manufactured home is the roof covering. No structural attachment is allowed.
 4. The term "approved", is a method or material approved by the building official.
 5. All areas with an asterisk (*) shall be filled in with proposed design.

Handrails:
 Stairways shall be continuous for the full length of the flight, from a point directly above the top riser of the flight to a point directly above the lowest riser of the flight. Handrail ends shall be returned or shall terminate in newel posts or safety terminals. Handrails adjacent to a wall shall have a space of not less than 1 1/2 inch (38 mm) between the wall and the handrails.
